**ARTICLE II
MISSION STATEMENT**

The Council will continue to support local, regional, and state-wide all-hazard preparedness while reducing vulnerabilities to both natural disasters and terrorist attacks. The Council will accomplish this by building local and regional response capabilities and encouraging citizen preparedness and emphasizing citizen safety before, during and after an event or attack. The Council will also assist in developing comprehensive preparedness, response, and recovery strategies in partnership with other government agencies and the private sector.

VISION

North Central Kansas Region citizens and critical infrastructure will be served by the appropriate levels of preparedness measures with respect to any real or potential hazard or terrorist act. This will be accomplished through a unified homeland security structure that will protect against today’s threats and meet the unknown threats of the future.

FOCUS

North Central Kansas Region’s security strategy provides the foundation for meeting the State’s vision by focusing on the following four key areas of all hazard preparedness:

- Mitigation – identify and protect critical infrastructure assets while improving the ability of state and local agencies to gather, analyze, and share information about all hazard activity.
- Preparedness – Build, sustain & improve operational capability by planning, training & exercising. Preparedness includes plans or other preparations made to save lives and facilitate response and recovery operations. Preparedness measures involve all of the players in the integrated emergency management system—local, state, and federal agencies and citizens.

- Response – identify and close existing gaps in basic emergency response capabilities as well as ensure effective coordination of emergency response to all hazards including CBRNE and cyber-terrorist attacks.
- Recovery – put plans and resources in place to enable an effective recovery from natural and/or manmade hazards for both public and private entities.
